

Meeting Monitor™

Interactive Room and Resource Digital Signage System for Meeting Rooms, Conference Rooms, Training Rooms, Desks and Car Spaces

Meeting Monitor optimises the utilisation and efficiency of workplace resources by providing touch screen access to resource reservations created in a wide range of desk top booking systems including Microsoft Outlook, IBM Lotus Notes and other leading CAFM systems

The room and kiosk screens are easy to operate, fully customisable and include facilities to create instant bookings, check-in/check-out, and extend reservations

Floor Plan Kiosk for Room Booking

BENEFITS

- ✓ Real-time visibility of room and resource status using room screens and optional interactive multi-resource multi-zone floor plan kiosks - ends disruptions and arguments when room schedules are not visible
- ✓ Instant touch screen booking, check-in, extend, check-out using either room screens or floor plan displays – captures actual usage data for accurate resource planning
- ✓ Optional auto-cancellation mode for no-show reservations - releases the resource for other users to utilise thus improving resource availability and utilisation
- ✓ Non-proprietary technology – the system is web based and uses easily managed standard Windows PC based screens
- ✓ In-wall screens and optional Wi-Fi ensures a simple installation - surface mount screens also available for solid and glass walls

Wi-Fi Room Screens available in white, black and grey

Meeting Monitor is a future proofed solution that with the choice of desktop booking systems, customisation options and choice of industry standard hardware will adapt, expand and evolve with changing organisational requirements.

To find out more visit www.MeetingMonitor.co.uk or email QED at info@qedas.com

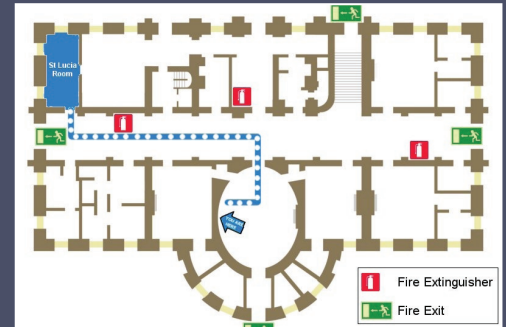

In-wall meeting room touch screens available in various sizes 8" - 15"

FEATURES

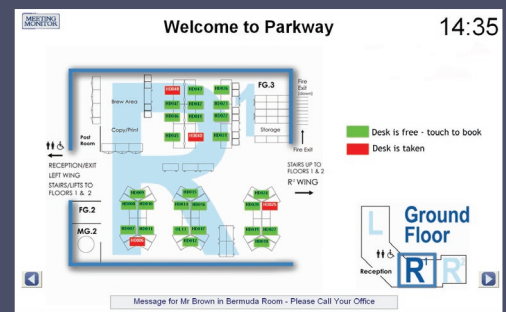

- ❖ Choice of desktop booking systems to suit organisational requirements from standard integrated Microsoft Outlook and Lotus Notes clients to powerful browser based CAFM suites
- ❖ Simple to understand with past, current and future reservations clearly indicated with colour coded time bar
- ❖ Meeting Room details shown include meeting duration, meeting title (confidential if required), chairperson and attendees
- ❖ Fully customisable screens with individual background images, logo's and stylesheets
- ❖ Screens can be display only or interactive
- ❖ Both instant and future same day reservations can be made quickly and easily using Smart Book button feature
- ❖ Actual resource usage data captured for accurate utilisation reporting and planning - one click export to Excel
- ❖ Basic digital signage feature provides ability for all screens to display other web content e.g. product advertising and company promotional information
- ❖ Hardware is non-proprietary and uses standard PC hardware - room screens available from 8" to 17" with both Wi-Fi and LAN connections
- ❖ Message broadcast feature allows messages to be sent to all screens or selected screens e.g. visitor welcome messages, health and safety information
- ❖ Fully integrated versions available for Lotus Notes and Microsoft Outlook/Exchange - no design changes required to standard software products
- ❖ Other options include screen sign-on using RFID smart cards, multi-lingual solutions and integrated lighting/power controls for rooms and desks
